

*Postdoctoral Fellowship in Tumor Immunology at Roswell Park*

COMPANY

Health Research Inc. (HRI) Roswell Park Division

DEPARTMENT

Immunology

HOURS/SHIFT

Full Time

SALARY

Commensurate with relevant research experience and NIH pay scale

DESCRIPTION OF DUTIES

The Department of Immunology at Roswell Park invites applications for a postdoctoral fellowship position. The applicant should possess research experience in molecular biology and tumor immunology. We have established several mouse tumor models in which to investigate key concepts of host-tumor interactions, including: (a) the biology or molecular biology of tumor progression; (b) host or immune determinants that additionally influence and drive the neoplastic process, such as immune suppressive myeloid populations; and (c) the development of novel combination immunotherapy strategies that target or modulate such host or neoplastic events to improve antitumor efficacy in these preclinical models.

QUALIFICATIONS

Candidates should have a Ph.D. and/or M.D. degree, with experience in both molecular biology and immunology skills, including the handling of mice for in vivo applications.

APPLICANT INSTRUCTIONS

Send your curriculum vitae, bibliography, and names of two-three references to:

Scott I. Abrams, Ph.D.  
Distinguished Professor  
Department of Immunology  
Roswell Park Comprehensive Cancer Center  
Elm and Carlton Streets  
Buffalo, NY 14263
